About RealMed Corp.

RealMed is in the vanguard of a new era in health care administration that uses the power of the internet to automate health care transactions and information exchange between providers, payers and patients.

By connecting providers, payers and patients directly online, the advantages of realtime transaction capability can be brought to bear. This capability, together with more powerful reporting and workflow enhancing features can dramatically enhance administrative efficiency and time to payment performance levels for providers.

RealMed serves a large number of professional providers ranging from one doctor practices to large academic medical centers and specialty providers on all aspects of their revenue cycle management needs.
