Key Terms and Definitions

Key Term	Definition
Electronic Visit Verification (EVV)	Is a computer-based system that electronically documents and verifies service delivery information, such as date, time, service type and location for certain Medicaid service visits
21st Century Cures Act	The 21st Century Cures Act is a federal law enacted by the U.S. Congress in December 2016. This law requires all states to use EVV for Medicaid personal care services (PCS) and home health care services (HHCS) requiring an in-home visit that are provided under a State plan or under a waiver of the plan.
EVV Compliance Reviews	A set of standards established by Texas HHSC and Managed Care Organizations (MCOs) to review on a regular basis to ensure program providers, Financial Management Services Agencies (FMSAs), and Consumer Directed Services (CDS) employers adhere to EVV requirements
EVV Policy Handbook	The Texas Health and Human Services Commission (HHSC) handbook that provides EVV standards and policy requirements
EVV Claims	Documentation submitted to HHSC or an MCO for reimbursement of services required to use EVV
Manual EVV Visits	When the service provider fails to clock in or clock out of the EVV system or an approved clock in or clock out method is not available, the program provider, FMSA or CDS employer must manually enter the EVV visit into the EVV system
Rejected EVV Visits	When an EVV visit, transaction is sent to the EVV Aggregator and does not pass all EVV visit transaction validations, the EVV visit transaction is rejected and sent back to the EVV system to notify the program provider or FMSA
Visit Maintenance	Process used by the program provider, FMSA or CDS employer to correct an EVV visit transaction in the EVV system to accurately reflect the delivery of service

Rejected EVV Visits – Section 11030

- When an EVV visit transaction is sent to the EVV Aggregator and does not pass all EVV visit transaction validations, the EVV visit transaction is rejected and sent back to the EVV system. This is to notify the program provider, FMSA or CDS employer visit maintenance is required.
- Rejected EVV visit transactions identified as Program Provider or FMSA errors count against the EVV Usage Score for the state fiscal year quarter even after being accepted by the EVV Aggregator.
- Utilize the Rejection Visit Table to know why the visit was rejected and how to fix the EVV visit transaction.

TMHP EVV Visit Rejection Guide

- The Texas Medicaid & Healthcare Partnership (TMHP) has updated the Electronic Visit Verification ([EVV](#)) [Visit Transaction Rejection Guide](#) on January 20, 2023.
- The guide is to assist Program Providers and FMSAs with identifying and taking the necessary steps to correct an EVV Visit Transaction Rejection.
- If necessary, complete visit maintenance on the rejected EVV visit transaction:
 - Visits within the standard visit maintenance timeframe – Complete visit maintenance in the EVV system
 - Visits beyond the standard visit maintenance timeframe – Submit an EVV Visit Maintenance Unlock Request to the appropriate payer for approval
- After making the necessary corrections to the rejected EVV visit transaction, the EVV system automatically resubmits the corrected EVV visit transaction to the EVV Aggregator to validate the data element(s). It is the responsibility of program providers and FMSAs to submit adjusted EVV claims to TMHP resulting from EVV Visit Maintenance.
- Program providers and FMSAs can view the EVV visit transaction rejection code(s) associated with a rejected EVV visit transaction in the EVV system and in the EVV Portal.
