

**BLUE CROSS AND BLUE SHIELD OF TEXAS (BCBSTX)
2022 OUTPATIENT PRIOR AUTHORIZATION REQUIREMENTS BY PROCEDURE CODE FOR
OTHER ADMINISTRATIVE SERVICES ONLY (ASO) MEMBERS**

EXCEPT AS OTHERWISE NOTED IN THE UPDATES COLUMN, THESE PRIOR AUTHORIZATION REQUIREMENTS ARE EFFECTIVE ON **JANUARY 1, 2022**

General Information:

Procedures on the following pages may require prior authorization. These lists are not exhaustive. The presence of codes on this list does not necessarily indicate coverage under the member benefits contract. Member contracts differ in their benefits. Consult the member benefit booklet or contact a customer service representative to determine coverage for a specific medical service or supply. ASO groups may have specific prior authorization requirements. Providers should check eligibility and benefits through Availity® or their preferred vendor to determine if a prior authorization is required.

**2022 Medical Surgical Procedures Requiring Prior Authorization
Updated December 2022 to reference changes that will be effective January 2023**

Updates to this list are announced routinely in the News and Updates section of the bcbstx.com/provider website.

[Refer to Utilizations Management page on the BCBSTX provider website for any specific ASO group prior authorization information.](#)

PRESS "CTRL" AND "F" KEYS AT THE SAME TIME TO BRING UP THE SEARCH BOX. ENTER A PROCEDURE CODE OR DESCRIPTION OF THE SERVICE.

2022 Behavioral Health Services Requiring Prior Authorization

EXCEPT AS OTHERWISE NOTED IN THE UPDATES COLUMN, THESE PRIOR AUTHORIZATION REQUIREMENTS ARE EFFECTIVE ON **JANUARY 1, 2022**

Service	Service Description
Elective or Emergency Inpatient	A short-term acute care facility which: 1. Is duly licensed as a Hospital by the state in which it is located and meets the standards established for such licensing, and is either accredited by the Joint Commission on Accreditation of Healthcare Organizations or is certified as a Hospital provider under Medicare;
Partial Hospitalization Treatment Program	A Claim Administrator approved planned program of a Hospital or Substance Use Disorder Treatment Facility for the treatment of Mental Illness or Substance Use Disorder Treatment in which patients spend days. This behavioral healthcare is typically 5 to 8 hours per day, 5 days per week (not less than 20 hours of treatment services per week). The program is staffed similarly to the day shift of an inpatient unit, i.e. medically supervised by a Physician and nurse. The program shall ensure a psychiatrist sees the patient face
Residential Treatment Center (RTC) Admissions	A facility setting (including a Residential Treatment Center for Children and Adolescents) offering a defined course of therapeutic intervention and special programming in a controlled environment which also offers a degree of security, supervision, structure and is licensed by the appropriate state and local authority to provide such service. It does not include half-way houses, wilderness programs, supervised living, group homes, boarding houses or other facilities that provide primarily a supportive environment and
Applied Behavior Analysis (ABA)*	Applied behavior analysis is a method of therapy utilized to improve or change specific behaviors of members who have a diagnosis within the Pervasive and specific developmental disorders category of ICD-10.
Intensive Outpatient Programs (IOP)	A freestanding or Hospital-based program that provides services for at least three hours per day, two or more days per week, to treat mental illness, drug addiction, substance abuse or alcoholism, or specializes in the treatment of co-occurring mental illness with drug addiction, substance abuse or alcoholism. Programs that specialize in the treatment of severe or complex co-occurring conditions offer integrated and aligned assessment, treatment and discharge planning services for mental illness and for drug addiction,
Outpatient Electroconvulsive Therapy (ECT)*	A treatment that involves brief electrical stimulation of the brain while a member is under anesthesia to treat severe psychiatric disorders and billed by a facility/clinic. It is typically administered anywhere from 2-3 times per week if a member is simultaneously admitted to an inpatient Care Level. However, once the member steps down to an outpatient Care Level, frequency may change to once every 3-4 weeks.
Psychological/Neuropsychological Testing*	Psychological testing consists of the administration of psychological tests which measure a sample of a member's behavior. Note: Psychological/Neuropsychological Testing only requires Prior Authorization in some cases. BCBSTX will notify the provider if prior authorization is required for these testing
Repetitive Transcranial Magnetic Stimulation (rTMS)*	A form of brain stimulation therapy used to treat psychiatric conditions in a facility/clinic setting. A treatment course is usually 1 daily session, 5 times per week for up to 6 weeks, followed by a 3-week taper of 3 rTMS session in week one, 2 rTMS sessions the next week, and one rTMS session in the last week (total of 36 sessions). The treatment course may be repeated after a 6-month cessation period if needed. The therapy cannot be administered on the same day as a PHP, IOP, ECT, or ABA Care Level service.

*Note: Code list provided below for Services. This is not an exhaustive listing of all codes. Codes may change, and this list may be updated throughout the year. The presence of codes on this list does not necessarily indicate coverage under the member benefits contract.
