

COVID-19 Vaccine Availability Information for Providers

What's new: As part of the Texas Vaccines for Children program, COVID-19 vaccines are available for children 6 months and older through the TVFC Vaccine Allocation and Ordering System, with no identified supply or ordering issues. The Texas Medicaid pharmacy benefit does not cover COVID-19 vaccines for children.

What this means for you: Vaccines available through TVFC for children over 6 months are summarized in the table below. The sole FDA-approved choice available for children 6 months through 4 years is the Moderna COVID-19 vaccine, which is approved for children 6 months through 11 years. TVFC added the updated 2025–2026 COVID-19 vaccines to the vaccine choice page in VAOS.

Providers should adjust their vaccine choice as needed. An ordering walkthrough is attached to this notice. To update vaccine choices, follow these steps:

- Access the VAOS Provider Portal and select “Vaccine Choice” from the top menu bar.
- Select the ordering facility from the drop-down menu. Once completed, click submit.
- Return to the homepage and select “Reporting and Ordering” to place a vaccine order.

| Program | Manufacturer | NDC | Brand |
|---------|----------------|---------------|--|
| TVFC | Moderna | 80777-0113-80 | SPIKEVAX 6m to 11y, 10 Pack – single dose syringe |
| TVFC | Moderna | 80777-0112-96 | SPIKEVAX for 12y+ 10 Pack – single dose syringe |
| TVFC | Pfizer | 00069-2501-10 | COMIRNATY 5y to 11y, 10 Pack – single dose syringe |
| TVFC | Pfizer | 00069-2528-10 | COMIRNATY for 12+, 10 Pack – single dose syringe |
| TVFC | Sanofi Pasteur | 80631-0207-10 | Nuvaxovid for 12y+, 10 Pack – single dose syringe |

What is the next step: Providers should follow the guidance within this communication and if needed reference the corresponding resource for ordering and reporting vaccine requests found in [VAOS](#).

If you have questions or require assistance, please reach out to our Medicaid Provider Network Team at **855-212-1615** or [email](#).

The information provided does not constitute coding or legal advice. Physicians and other health care providers should use their own medical judgment based upon all available information and the condition of the patient in determining the appropriate course of treatment, and to submit claims using the most appropriate code(s) based upon the medical record documentation, coding guidelines and reference materials.
