

## **CLINICAL PAYMENT AND CODING POLICY**

If a conflict arises between a Clinical Payment and Coding Policy (CPCP) and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. “Plan documents” include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions and other coverage documents. Blue Cross and Blue Shield of Texas (BCBSTX) may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSTX has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from the Health Insurance Portability and Accountability Act (HIPAA) approved code sets. Claims should be coded appropriately according to industry-standard coding guidelines including, but not limited to Uniform Billing (UB) Editor, American Medical Association (AMA), Current Procedural Terminology (CPT®), CPT® Assistant, Healthcare Common Procedure Coding System (HCPCS), ICD-10 CM and PCS, National Drug Codes (NDC), Diagnosis Related Group (DRG) guidelines, Centers for Medicare and Medicaid Services (CMS) National Correct Coding Initiative (NCCI) Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions are subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

### **Outpatient Facility and Hospital Claims: Revenue Codes Requiring CPT or HCPCS Codes**

**Policy Number: CPCP018**

**Version 1.0**

**Clinical Payment and Coding Policy Committee Approval Date: June 16, 2020**

**Plan Effective Date: July 1, 2020 (Blue Cross and Blue Shield of Texas Only)**

#### **Description**

The Plan requires outpatient facility providers and hospitals indicate the most appropriate Healthcare Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) code(s) in addition to the revenue code for all electronic outpatient facility claims.

#### **Reimbursement Information:**

All electronic claims submitted by an outpatient facility provider or hospital must include a supporting HCPCS, or CPT code with a revenue code unless otherwise specified in the provider contract. Revenue codes and procedure code combinations that are submitted on outpatient claims should reflect the services that were provided to the patient on that date of service. These codes should be submitted on the same line for accurate claims processing.

If more than one HCPCS or CPT code is needed for a revenue code, the revenue code should also appear on a separate line.

**A revenue code and corresponding HCPCS or CPT code must be compatible. Refer to the most current Uniform Billing Editor for appropriate code sets.**

Outpatient facility and hospital claims may be denied when received without the corresponding appropriate HCPCS/CPT codes associated with the following list of revenue codes. If the claim has been denied, it may be resubmitted with the correct HCPCS or CPT code.
