

# Coronavirus and What It Means

## What is a coronavirus?

Coronaviruses have been around for decades and are perhaps best known for causing illnesses like the common cold, with symptoms like coughing, sneezing and other upper respiratory issues. In late 2019, a new coronavirus was discovered.

## What can you do to keep yourself and others healthy?

According to the Centers for Disease Control (CDC):

Right now, there is not a vaccine to prevent coronavirus disease 2019 (COVID-19). The best way to prevent getting sick is to avoid being exposed to this virus. Keep in mind, CDC says you should always take steps to help prevent the spread of respiratory diseases, such as:

- Try not to be around people who are sick.
- Try not to touch your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue. Then, throw the tissue in the trash.
- Be sure to clean items that are touched often and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands look dirty.

- Follow CDC's advice for using a facemask.
  - CDC does not suggest that people who are well wear a facemask to protect themselves from respiratory diseases, such as COVID-19.
  - Facemasks should be used by people who show signs of COVID-19 to help avoid the spread of the disease to others.
  - The use of facemasks is also important for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

## **What are the symptoms of the coronavirus?**

- Fever
- Cough
- Shortness of breath

## **What should I do if I think I have COVID19?**

- Seek medical help if you have traveled to China recently and feel sick.
- Call ahead before you go to a doctor's office or ER. Tell them about your recent travel and your symptoms.

## **Do I need to go to the emergency room (ER)?**

Not usually. If you are not sure if you need to go to the ER, call your doctor. Or, call the BCBSTX 24/7 Nurse Advice line The 24/7 Nurse Advice Line is available 24 hours a day, 7 days a week. To get help through the Nurse Advice Line, call the phone number on the back of your member ID card.

## **For more information**

For more information on coronavirus, visit <https://www.cdc.gov/coronavirus/2019-ncov/index.html>. If you need assistance, call BCBSTX Customer Service. You can find the Customer Service phone number on the back of your member ID card.
