

# Have You Been Vaccinated?

You can help protect yourself by getting a vaccine.

Blue Cross and Blue Shield of Texas (BCBSTX) wants to help you protect yourself from illnesses such as the flu, pneumonia, shingles, hepatitis B, tetanus, diphtheria, pertussis, meningitis and HPV. As part of your BCBSTX prescription drug benefit, you and your covered family members may get these select vaccinations at participating pharmacies.\*

## Find Participating Pharmacies

Many national chain, regional chain and independent pharmacies contract with the vaccine network. To find a participating pharmacy:

- Log in to [MyPrime.com](https://www.myprime.com), the member website of BCBSTX's pharmacy benefit manager. You can log in directly or from your Blue Access for Members<sup>SM</sup> (BAM<sup>SM</sup>) account.
- Select [Find a Pharmacy](#), enter your zip code and filter for vaccine pharmacies in your network.

You may also call the number on your BCBSTX ID card for help in finding a participating pharmacy near you.

## Before You Go

Age limits, restrictions or other requirements may apply. Ask your doctor if you should get any of these vaccinations. You can also visit the Centers for Disease Control and Prevention website at [www.cdc.gov/vaccines/schedules/index.html](https://www.cdc.gov/vaccines/schedules/index.html) for immunization guidelines.

Call your chosen pharmacy location for complete details and confirm:

- The location's participation
- The vaccine is in stock
- Someone can give you the shot, or if you need to schedule an appointment

Remember to hand your ID card to the pharmacist when you visit a participating pharmacy to get a vaccination. The pharmacist will submit a claim and collect any copayments, if necessary. Your benefit plan may cover these vaccines for \$0 out of pocket. Check your plan materials or call the number on your ID card to find out what may apply for your particular health plan.

\* This applies to BCBSTX members with prescription drug benefits that include coverage for these vaccinations. If you are a member whose prescription drug plan is not administered through BCBSTX, or coverage for these vaccinations are not included in your particular plan, please contact your employer group benefits administrator for information about the availability of vaccinations through your health plan.

MyPrime.com is an online resource offered by Prime Therapeutics LLC, a pharmacy benefit manager contracted by BCBSTX to administer your prescription drug benefit.
