An Eligibility and Benefits Inquiry should be completed for each Blue Cross and Blue Shield of Texas (BCBSTX) patient prior to every scheduled appointment. Eligibility and benefit quotes include important information regarding the patient’s benefits, such as membership verification, coverage status and applicable copayment, coinsurance and deductible amounts. Additionally, the benefit quote may include information on applicable benefit preauthorization/pre-notification requirements.

Checking eligibility and/or benefit information is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member’s eligibility, any claims received during the interim period and the terms of the member’s certificate of coverage applicable on the date services were rendered.

10) Grace Periods

Some individuals who purchase insurance through the health insurance marketplace may receive an advance premium tax credit (APTC). These members qualify for a three-month grace period to pay their premium – provided they have already paid at least one month’s premium in full.

All allowable services provided during the first month of the grace period will be the responsibility of BCBSTX, subject to member cost sharing. BCBSTX will process all claims the member incurs during the second and third months of the grace period. If the member does not pay all outstanding premium payment(s) in full by the end of the third month, BCBSTX will send a request for refund to the provider for claims paid for services rendered in months two and three.

The Plan/Product Information of the Patient Information tab will provide a grace period indicator for applicable members, including grace period start and end dates, as shown in the example.

Note: Not all members who purchase coverage on the health insurance marketplace will receive the APTC.
