The Affordable Care Act and You

Nationally, millions of people have received health insurance coverage under the Affordable Care Act (ACA). Here are three things you should know:

1. **You may need to get health coverage.**
   The Affordable Care Act requires most Americans to have health coverage. Not signing up for a 2017 health plan may result in a federal tax penalty. The penalties are expected to increase each year.

2. **You can get health coverage.**
   The health care law creates options for many people to get coverage. You also won’t be turned down because of a pre-existing health condition, such as asthma, heart disease or cancer.

3. **You may get help paying for it.**
   Your income and family size may qualify you for cost assistance, including a tax credit that lowers your monthly premium cost, and cost-sharing assistance to help lower your out-of-pocket costs.

Do You Qualify for Financial Assistance?

Based on your income, family size and the health plan you choose, you may qualify for federal financial assistance when you buy a plan through the Health Insurance Marketplace in Texas. This could lower – or even eliminate – your cost for your monthly premium. You can see if you are eligible by visiting the Marketplace.

Text TXQUALIFY to 33633 to see if you qualify for federal financial assistance.

How Do You Sign Up for Health Coverage?

When you are ready to choose your health plan, go to bcbstx.com, where you can compare all our plans. Choose the one that works best for you and your family.

If you qualify for cost assistance, you will need to go directly to the Marketplace. You will see many choices for health coverage and can compare your options. After you learn about possible cost assistance and choose a plan, you will see how much your share will be.

What are Essential Health Benefits?

The Affordable Care Act requires that all health plans and HMOs sold on the Marketplace must cover certain basic services that are considered essential to good health. These include:

- Ambulatory patient services
- Emergency services
- Hospitalization
- Maternity and newborn care
- Mental health and substance use disorder services, including behavioral health treatment
- Prescription drugs
- Rehabilitative and habilitative services and devices
- Laboratory services
- Preventive services and chronic disease management
- Pediatric services, including oral and vision care
Blue Advantage HMO\textsuperscript{SM}

An HMO, also known as a health maintenance organization, is a health plan that may provide individuals with more affordable options to access care.

- **An HMO may mean lower out-of-pocket costs** than other types of health coverage.
- **With an HMO, you choose a primary care provider (PCP)** who will be your main contact for all your health care needs. Whether you are making an appointment for an annual exam or need a referral, your PCP is the person to call.
- **HMOs do not typically cover out-of-network expenses other than emergencies.**\footnote{Emergency benefits are available out of network for HMO plans.} It is important that you make sure your doctor, hospital or other health care provider is in the network so you can avoid unnecessary charges.
- **Blue Advantage Plus\textsuperscript{SM} plans offer out of network benefits as well.** Please see your benefit book for more information.

Is an HSA* (Health Savings Account) Right for You?

An HSA is a special savings account that you can use to cover a wide range of qualified medical expenses. An HSA allows you to take charge of your health and be responsible for how you spend your health care dollars. For many people, using an HSA is an effective way to manage the costs of health care. Not all plans are HSA compatible. Visit bcbstx.com or speak with an independent, authorized agent to learn more.

Notice: Certain individuals who receive cost-sharing reductions under their benefit plan that have the effect of reducing the deductible below the federal government's minimum deductible may not be eligible to contribute to a Health Savings Account. Please consult your tax adviser for more information.

Health Care Services That Work for You

To facilitate the appropriate use of medical services, we provide utilization management and case management services. Information regarding services that require pre-certification or how to pre-certify is made available on bcbstx.com or by calling the toll-free Customer Service telephone number. In addition, female members can receive specialized care from an OB-GYN from the same network as the primary care provider (PCP) without a referral.
