Prescription Drug Utilization Benefit Management Programs⁹	<p>Specialty Pharmacy Program: To be eligible for maximum benefits, specialty medications must be obtained through the preferred Specialty Pharmacy provider.</p> <p>Member Pay the Difference: When choosing a brand name drug over an available generic equivalent, you pay your usual share plus the difference in cost.</p> <p>Prior Authorization/Step Therapy Requirements: Before receiving coverage for some medications, your doctor will need to receive authorization from BCBSTX and you may first need to meet certain criteria or try more cost-effective drugs.</p> <p>Mail-Order Program: You may receive a 90-day supply for prescription drugs through the mail-order program or at select retail pharmacies depending on your prescription drug benefit.</p>		

1 Depending on your plan, benefits are either reduced or not available when non-participating providers are used. This is a summary of benefit highlights only. All benefits shown indicate member responsibility.
 2 The standard per person deductible and out-of-pocket maximum for this plan is shown. Based on your income and family status you may qualify for one of three lower deductible levels. You will be able to see if you qualify and what your premium, deductible and out-of-pocket costs will be before you make a decision to enroll. You must pay all the costs up to the deductible amount before this plan begins to pay for covered services you use. Note that copays apply whether or not you have met the deductible.
 3 All percentages shown are of the allowable amount for covered services.
 4 Members may have lower out-of-pocket costs for some services provided by non-emergency freestanding outpatient facilities than the out-of-pocket costs for services provided in a hospital setting. See your Summary of Benefits and Coverage for additional details.
 5 As a reminder, a Health Savings Account (HSA) has tax and legal ramifications.
